Executive Summary

Following the December update to Board work has been ongoing across all partners to finalise the Integrated Care System (ICS) Integrated Care Strategy. The attached strategy is the latest iteration of this document following feedback on earlier versions from partners including SFH Board.

The strategy has been built bottom-up from local assessments of needs and assets identified at place level. The Health and Care Act 2022, which established the ICP on a statutory basis also places a duty on the Integrated Care Board (ICB) to have regard to the Joint Strategic Needs Assessments (JSNAs), Integrated Care Strategy, and Joint Health and Wellbeing Strategies (JHWBSs) when exercising its functions and developing its Joint Forward Plan with NHS Trusts and Foundation Trusts.

The following diagram shows the relationships between the key system strategies and how they interface:

The final version of the ICS Integrated Care Strategy will be published on 9th March 2023 with the ICP papers in readiness for the ICP meeting on 17 March where the final version will be approved. Following this the strategy will be launched offering the opportunity for SFH to align the design and content of our new 5 year strategy alongside this and other key system strategies.

The Board is asked to:

To receive the current version of the ICS strategy
