## Healthier Communities, Outstanding Care

The attached paper provides a narrative update against each priority for quarter 1. For the items off track, all have plans to bring back on track with the main reason being as slight (but recoverable) slippage in anticipated delivery timescales.

- 1.2a Modular theatre arrived on site early July. Opening scheduled for October 2023
- 1.2b Building works delayed. Due to commence Jan/Feb 2024, workforce plan due August 2023
- 1.3 Conclusion of priority programmes of work refresh to be presented end of July. IPR has further performance data
- 1.4a Overspend against variable pay versus plan. Bespoke reporting has been developed to support improved scrutiny and mitigating actions. Strategic workforce model in development
- 4.1a EPMA rolled out to 80% of Trust with remaining 20% prioritised but awaiting resource identification

This report will continue to be developed for Quarter 2 to ensure assurance can be provided for the priorities off track including an improved summary of actions underway to improve the position. This information will be taken from sub-committee and associated meeting minutes.
