

INFORMATION FOR PATIENTS

How to use a Turbohaler with dose counter

This leaflet will inform you how to use your Turbohaler with dose counter.

Always read the patient information leaflet which comes with this inhaled medication.

This is a Turbohaler with a dose counter. These come in different colours indicating different medicines.

The benefit of using your inhaler correctly is that your asthma or chronic obstructive pulmonary disease (COPD) will be controlled more effectively.

Incorrect use of your inhaler may result in reduced control.

To effectively use your Turbohaler with dose counter, follow this step by step guide:

1. Use only as prescribed.
2. Unscrew and lift off white cover.
3. Hold main body of Turbohaler upright.
4. Twist the coloured base as far as it will go in both directions. A clicking sound should be heard.
5. Breathe out away from the Turbohaler mouthpiece.
6. Put the mouthpiece between the lips and teeth and breathe in as deeply as possible. Even when a full dose is taken there may be no taste.
7. Remove the Turbohaler from the mouth and breathe out.
8. For further doses repeat steps 2-6.
9. Replace white cover.

Cleaning of the Turbohaler

Wipe the mouthpiece only with a dry tissue/cloth. Never wash the device.

How to store the Turbohaler

Store away from extremes of temperature, in a safe place away from young children.

Replacement of a Turbohaler

Do not use after the expiry date.

Number of doses vary according to the drug strength. It has a numerical counter which counts down - when the counter reaches 0 on a red background, the device is empty.

General Information

A Turbohaler contains desiccant to absorb any moisture. It can be heard when the device is shaken.

**It is not the amount of drug remaining
Even when empty the device can be heard when it is shaken.**
