24th November 2023

Dear Sir/Madam

With reference to your request for information received on 17th November 2023, I can confirm in accordance with Section 1 (1) of the Freedom of Information Act 2000 that we do hold the information you have requested. A response to each part of your request is provided below.

In your request you asked:

- 1. Please advise what software/systems you use for managing medical devices to be compliant with MHRA Guidance Jan 2021? See link [Safeguarding public health \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk)**

Mri software's Real Asset Management system 5000

- 2. If applicable, how long is the contract and when does it expire (month and year)?**

N/A

- 3. What is the annual budget for the system listed in response to question 1?**

Section 43 - Commercial interests

It is our opinion that the information sought in relation to costs is exempt from disclosure pursuant to section 43(2) of the Freedom of Information Act 2000 (FOIA). S43(2) relates to information that is exempt from disclosure that could have a detrimental effect on the commercial interests of "...any person." The Trust considers that at this time the commercial interests of the Trust, third parties and overall the NHS could be detrimentally impacted upon. Please see the public interest test below.

Public Interest Test

We recognise that the disclosure of the information sought in relation to the costs involved would provide transparency in the use of public funds by the Trust and the NHS in general. It would also assist the general populous with transparency in decision making by the Trust and their transactions with third parties.

Conversely to the factors demonstrated above in favour of disclosure, it is felt that the Trust, third party suppliers and overall, the NHS could be disadvantaged should the information sought in relation to costs being made available. Suppliers compete with one another in a competitive environment and to provide the value of the costs involved may allow rival companies to undercut the Trust current suppliers, lead to loss of confidence by suppliers and customers and could cause significant harm and disadvantage to the Trust and suppliers.

The disclosure could also adversely impact on any on-going or future procurement processes for the reasons outlined above. Any disclosure by the Trust could also in future discourage the provision of commercially sensitive information necessary to respond properly to the Trusts Invitation To Tender and would be likely to affect and undermine the Trusts bargaining position in any future procurement process or negotiations. Ultimately civil action could be taken against the Trust should information be disclosed that adversely affects the commercial interests of current and/or future suppliers.

As a result, it is in the Trust's opinion that this sufficiently demonstrates the prejudice which could be caused through disclosure.

Balance Test

It is important to bear in mind that any disclosure under the FOI Act is a disclosure to the public at large and not just to the applicant. It is recognised that there is a general public interest in the Trust being open and transparent. However, it is not believed that this public interest is served in disclosure for damage that would be caused as outlined above.

Therefore, – the Trust considers that releasing this information would not be in the public interest, as the public interest does not outweigh the prejudice as set out above. Further guidance can be accessed from the Information Commissioner's Office <https://ico.org.uk/for-organisations/guidance-index/freedom-of-information-and-environmental-information-regulations/section-43-commercial-interests/>

4. Please advise on the name and contact for the person responsible for ensuring compliance with the MHRA guidance quoted above.
