

Governance – 2.5.7 Lack of opportunities for Trauma & Orthopaedics trainees to get experience. The rotas to be redesigned to ensure trainees are given greater exposure to lists to increase their experience.	Current BRAG Rating	Recommended BRAG Rating
	Completed 30 April 2015	Blue subject to CQC/HEEM confirmation Trust Board 22 December 2015
Detail:		
<p>Trainees in Trauma and Orthopaedics benefit from having two lists as part of their training. One trainee from Derby even changed his rotation in April in order to come to Kings Mill hospital.</p> <p>“...trainees have at least three theatre sessions per week. Trainees advised that for core trainees opportunities are flexible allowing core trainees to find the cases they want/need to be involved in. Trainees also stated that they had all reached the required numbers for their training log books. Trainees reported that there were good training opportunities in clinics and no concerns were raised in relation to their supervision whilst in clinic.” – HEEM_Trauma and Orthopaedics Outcomes Report July 2015</p>
