### **Comments on review of Red/Amber actions**

| Has the committee reviewed relevant workstream summaries?   | Yes/ <del>No</del> (please delete)   |
|---|--|
| Does the committee agree with the assessment<br>of Red and Amber actions identified on those<br>reports?  | Yes/ <del>No</del> (please delete)   |
| Is the committee satisfied with the executive<br>lead's actions with regards to these actions and<br>have additional actions been required by the<br>committee (please note)? | There was a detailed conversation in relation to each of<br>the red and amber actions and relevant executive leads<br>provided verbal updates and assurance of delivery by<br>the revised expected completion date. The need to<br>provide robust evidence that specifically supports the<br>required actions was noted. |

### Additional comments from committee chair

The quality improvement plan review process is seen as a robust process.

As referenced above there is a need to ensure that the evidence specifically responds to the action described.

The need to ensure policies and processes are not only updated but embedded with evidence that they are operating effectively was also highlighted.

Concern was raised that 11 of the 90 section 29a and section 31 actions have been rated as red in the QIP. A separate analysis of these specific areas should be considered by the trust board.
