Diagnostic In	maging - Kings Mill Hospital								
5.31	The provider should ensure access to patients requiring MRI scans is improved.	Target for DMO1 is 1% across all modalities (tolerance of patients not being booked within DMO1 target-for MRI this will be 13-14 patients depending on demand. Target for cancer 14 days-90% and 80% for 7days. Businersss case for static scanner to be completed and	To fully utilise the mobile MRI van with contrast injector. To increase capacity for MRI on both mobile and static van. To utilise the Park Hospital. Utilise imaging assistants to cannulate to free up more capacity.	Elaine Torr	31/03/2019		A		
		sent to IGG							
5.32	The provider should ensure the risk register consistently reflect risks that were managed through local and divisional governance processes.	Radiology will have an up-to-date risk register which is reviewed regularly in line with Trust guidelines.	Once risks have been identified and discussed with both governance and the wider Radiology team these will be recorded on the register immediately.	Elaine Torr	31/03/2019		G		
5.33	The provider should ensure that patients from wards are brought to the radiology department with their notes.	Case note for in-patients are brought down with in-patients or there is access to nerve centre.	KMH-10 ascertainfrom local Trusts whether case notes are brough down for all in-patients. Chief AHP to discuss with Nusring/AHP Board meeting the implications of bringing notes down. To look at the possibility of using NND. Centre to identify patients on AND. NWK/NMCH- As this is a smaller number of patients this is sasier to implement. For plain film at NWK, this is already in naive		31/03/2019				
5.34	The provider should ensure that document control is reviewed, and updated documents should be readily available to staff.	All documents will be in date and reviewed	Radiology have a well-managed system for identifying documents which are approaching out of date. Authors are notified and a register of all documents is maintained regularly	Elaine Torr	31/03/2019		G		
5.35	The provider should consider how to make the waiting areas throughout the department more patient centred.	Patient's views will be ascertained on what they would like the waiting rooms to look like. Changes will be made to address ideas/requirements to ensure the waiting areas are suitable.	Pictures have already been put up by Skanska that had a budget approval	Elaine Torr	31/03/2019		6		
5.36	nparterns: - manasterio Community Prospiral The provider should review the restrictions in capacity in the therapies team that impact their ability to carry out audits, research and service development.	Appropriate capacity available for therapists to participate in audit and research work, including Mansfield Community Hospital	Working with D&O (Therapist sit in D&O) to understand concerns and the role of our Audit department, time management and tool box trainging to support audit processes	Dale Travis	31/03/2019		A		
5.37	The provider should ensure staff have the support and resources they need to continue developing audit and patient outcomes work.	Appropriate capacity available for theraplist to participate in audit and research work, including Marsfield Community Hospital	On going discussions with teams understand concerns and publisise the role of our Audit department who can offer support, time management and tool box training to support audit processess. Introduction of new roles to include Audit and research element to role.	Dale Travis	31/03/2019		A
