INFORMATION FOR PATIENTS

Occupational Therapy – Hand Therapy

Thumb exercises

Basic terminology:

- Active exercises - using your own muscle power to do the exercises.
- Passive exercises - using your other hand or an object to assist the movement of the involved limb.

Exercises:

1. Pull the thumb up to rest on the palm, then push the thumb away from the palm:

2. Straighten the thumb (like a hitchhiker) then bend the thumb across the palm to try and touch the base of the little finger:

3. Touch the thumb to the tip of each finger in turn. Try to make an 'O' shape:

4. Try to slide the thumb down the side of each finger in turn:

5. Block the base of the thumb and try to bend the end of the thumb:

Exercise instructions

Carry out passive and active exercises/carry out passive exercises only/carry out active exercises only.

Carry out _____ of each exercise.

Repeat the exercises _____ times a day.
