Dear Sir/Madam

Freedom of Information Act (FOI) 2000 - Request for Information Reference: Use of Sodium Chloride and Levofloxacin in Ophthalmology

I am writing in response to your request for information under the FOI 2000.

I can confirm in accordance with Section 1 (1) of the Freedom of Information Act 2000 that we do hold the information you have requested. A response to each part of your request is provided below.

Home, Community, Hospital.

FOI Request / Question	Question Response	Is there an exemption?	Exemption	Exemption Details
1. What is your usage of sodium chloride 5% (10ml) units in the last 12 months?	SODIUM CHLORIDE 5% (preservative free) Eye Drops - 25 issued			
2. Who have been your suppliers of sodium chloride 5% (10ml) units during the past 12 months?	AAH HOSPITAL SERVICE			
3. What price does your trust pay for Sodium Chloride 5% (10ml units)?		Yes	Section 43	<p>Section 43 - Commercial interests</p> <p>It is our opinion that the information sought in relation to costs is exempt from disclosure pursuant to section 43(2) of the Freedom of Information Act 2000 (FOIA). S43(2) relates to information that is exempt from disclosure that could have a detrimental effect on the commercial interests of "...any person." The Trust considers that at this time the commercial interests of the Trust, third parties and overall the NHS could be detrimentally impacted upon. Please see the public interest test below.</p> <p>Public Interest Test</p> <p>We recognise that the disclosure of the information sought in relation to the costs involved would provide transparency in the use of public funds by the Trust and the NHS in general. It would also assist the general populous with</p>

				<p>transparency in decision making by the Trust and their transactions with third parties.</p> <p>Conversely to the factors demonstrated above in favour of disclosure, it is felt that the Trust, third party suppliers and overall the NHS could be disadvantaged should the information sought in relation to costs being made available. Suppliers compete with one another in a competitive environment and to provide the value of the costs involved may allow rival companies to undercut the Trust current suppliers, lead to loss of confidence by suppliers and customers and could cause significant harm and disadvantage to the Trust and suppliers.</p> <p>The disclosure could also adversely impact on any on-going or future procurement processes for the reasons outlined above. Any disclosure by the Trust could also in future discourage the provision of commercially sensitive information necessary to respond properly to the Trusts Invitation To Tender, and would be likely to affect and undermine the Trusts bargaining position in any future procurement process or negotiations. Ultimately civil action could be taken against the Trust should information be disclosed that adversely affects the commercial interests of current and/or future suppliers.</p> <p>As a result, it is in the Trust's opinion that this sufficiently demonstrates the prejudice which could be caused through disclosure.</p> <p>Balance Test</p>
--	--	--	--	---

				<p>It is important to bear in mind that any disclosure under the FOI Act is a disclosure to the public at large and not just to the applicant. It is recognised that there is a general public interest in the Trust being open and transparent. However, it is not believed that this public interest is served in disclosure for damage that would be caused as outlined above.</p> <p>Therefore, – the Trust considers that releasing this information would not be in the public interest, as the public interest does not outweigh the prejudice as set out above. Further guidance can be accessed from the Information Commissioner's Office https://ico.org.uk/for-organisations/guidance-index/freedom-of-information-and-environmental-information-regulations/section-43-commercial-interests/</p>
