

INFORMATION FOR PARENTS/GUARDIANS

MRI scan – discharge information

After a sedated MRI scan

Your child will need to be in hospital for 4 to 6 hours after the sedated scan. Please allow them to wake naturally. Before they can leave the ward your child must be awake and must be drinking eating and have passed urine.

Your child is likely to remain floppy for 24 to 48 hours after the sedation. One minute they will be able to walk, sit or stand and the next they may fall over. Please take extra care to avoid them hurting themselves. For safety reasons we recommend that your child stays off school the day after the procedure.

How will I receive the results after my scan?

Your child was referred for the MRI scan by Dr

- Paediatrician – telephone 01623 622515, extension 4399.
- Community Paediatrics - telephone 01623 622515, extension 4664.
- Ear, Nose and Throat doctor - telephone 01623 622515, extension 3769 or 9769 or 6171.
- Orthopaedics - telephone 01623 622515, extension 6318 or 4115 or 4175 or 4639.

Normally your doctor will have arranged an appointment following your scan to discuss the results. If you would like to know the results before then, you may choose to phone the doctor's secretary a week after the scan. You may be offered a letter, a phone call or an appointment. The results can take 2 to 3 weeks before they are fully reported.

Please continue with your child's prescribed medication as normal. If you have any concerns please check with your nurse on the day.
