

Quick Reference Guide

Updating UEC Diagnosis from the Dashboard

 The presenting complaint is displayed in blue text under the **UEC Diagnosis** column initially. Once the patient has been clerked, this updates into a black text displaying either a suspected [?] or confirmed [C] diagnosis.

1

Locate the patient on the UEC Dashboard.

2

Double-click on the appropriate cell within the **UEC Diagnosis** column.

3

Update the current diagnosis displayed by selecting.

OR

Select the **Select/Add** button on the upper left corner of the pop-up window. Select from the list.

OR

Type in the search box and press **Enter** from your keyboard.

Select from the search results.

4

Select the Qualifier, Laterality, Diagnosis Type, and/or Location to configure them. Click on the **Notes** box to start typing free text.

Select **Save** from the corner of the text box. 

5

Select **Save** from the bottom of the pop-up window to proceed.
