<p>1. What is the approval process by which an external organisation may apply or request to connect with the Trust's test clinical systems of record and the Trust's production clinical systems of record. (e.g. EMR, EHR, PACS)</p> <ul style="list-style-type: none"> Which internal teams, roles, or committees are responsible for approving such a connection? What steps are involved in obtaining the necessary permissions or agreements to establish such a connection? What is the entry point for this process? e.g. email address or webform. 	<p>There isn't a direct simple answer to this question. Approach to governance is entirely dependant on the Trust's cases, funding and art of the possible. In the digital context compliance with national standards and DTAC compliance are essential and to achieve this governance would include business case support, Information Governance approval, clinical safety approval and Cyber approval.</p>			

I trust this information answers your request. Should you have any further enquiries or queries about this response please do not hesitate to contact me. However, if you are unhappy with the way in which your request has been handled, you have the right to ask for an internal review. If you are dissatisfied with the outcome of the internal review, you can apply to the Information Commissioner's Office, who will consider whether we have complied with our obligations under the Act and can require us to remedy any problems. Generally, the Information Commissioner's Office cannot decide unless you have exhausted the internal review procedure. You can find out more about how to do this, and about the Act in general, on the Information Commissioner's Office website at: <https://ico.org.uk/your-data-matters/official-information/>.

Complaints to the Information Commissioner's Office should be sent to FOI/EIR Complaints Resolution, Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire, SK9 5AF. Telephone 0303 1231113, email casework@ico.org.uk.
