INFORMATION FOR PATIENTS

Patient advice following a flexible cystoscopy

What can I expect after my procedure?

Following your procedure, you may get some burning and/or bleeding during the first few days on passing urine.

You should drink twice as much fluid as you normally would for the first 24 to 48 hours to flush your system through.

If you develop a fever, severe pain on passing urine, an inability to pass urine or worsening bleeding you should contact your GP immediately.

Contact details

If you have any queries, please telephone the **Day Case Unit on 01623 622515, extension 6061**. Please be aware we do not work weekends.

If you need medical attention out of these hours, please contact your GP or alternatively call NHS 111 or attend your nearest Emergency Department.
