We have identified that question 1 will exceed the cost limit. For public authorities the cost limit is £450 (18 hours). If responding to one part of a request would exceed the cost limit, we do not have to provide a response to any other parts of the request. Therefore, the estimated cost of processing your request is £6,250.00. This charge has been calculated in accordance with section 13 of the Freedom of Information Act 2000 and the Freedom of Information Fees Regulations.</p> <p>There is no specific diagnosis code for BBQ related injuries within our digital record system. There are a number of codes for burns, cuts, trauma, food poisoning and carbon monoxide poisoning. In order to locate this information, we would need to review</p>

				<p>individual patient records to identify if they are BBQ related. Which we estimate will be over 1000 records. We have estimated that we can locate and review 4 patient records per hour. We estimate that the cost of satisfying your request will be £6,250.00 (250 hours x £25 per hour).</p> <p>Under section 16 of the Act we are obliged to advise you to refine your request to narrow the scope in order to bring it within the appropriate limit. Can we suggest that the timescales for question 1 are reduced, for example, to a calendar month. If the timescales are reduced to a month, the Trust will be able to respond to all of your questions. If you are unable to reduce the scope of the request the Trust will be unable to continue processing your request until the fee is paid. If you wish to proceed with this request the fee will need to be paid within three calendar months. If the fee is not received by this date, I shall take it that you do not wish to pursue this request and will consider the request closed.</p>
