| 9. Any available data recorded by the A&E department on time of ambulance arrival at the hospital for fall-related incidents. This is not a request for ambulance service response times. | <p>Section 12 of the Act allows the Trust to refuse to deal with any requests where we estimate that responding to the request would exceed the cost limit. We have identified that question 9 will exceed the cost limit. For public authorities the cost limit is £450 (18 hours). If responding to one part of a request would exceed the cost limit, we do not have to provide a response to any other parts of the request. Therefore, the estimated cost of processing your request is £31,159.38. This charge has been calculated in accordance with section 13 of the Freedom of Information Act 2000 and the Freedom of Information Fees Regulations.</p> <p>In order to locate this information, we would need to review individual patient records for the last 2 years. This would be a total of 9972 records. We have estimated that we can locate and review 8 patient records per hour. We estimate that the cost of satisfying your request will be £31,159.38 (1246.4 hours x £25 per hour).</p> <p>Under section 16 of the Act we are obliged to advise you to refine your request to narrow the scope in order to bring it within the appropriate limit. Can we suggest that the timescales for question 9 are reduced, for example, to a calendar month. If the timescales are reduced to a month, the Trust will be able to respond to all of your questions. If you are unable to reduce the scope of the request the Trust will be unable to continue processing your request until the fee is paid. If you wish to</p> | | | | | | | | | | | | |
