Dear Sir/Madam

**Freedom of Information Act (FOI) 2000 - Request for Information Reference:** financial spend of agency staff for Nursing (broken down to banding and/or job role and/or specialism), HCAs and Pharmacy: Pharmacists and Pharmacy Technicians

I am writing in response to your request for information under the FOI 2000.

I can confirm in accordance with Section 1 (1) of the Freedom of Information Act 2000 that we do hold the information you have requested. A response to each part of your request is provided below.

**Home, Community, Hospital.**

| FOI Request / Question   | Question Response   | Is there an exemption? | Exemption  | Exemption Details   |
|--|---|------------------------|------------|---|
| 1. For the most recent month available please provide your usage in terms of financial spend of agency staff for the job types below. Nursing (broken down to banding and/or job role and/or specialism), HCAs and Pharmacy: Pharmacists and Pharmacy Technician | August 2024<br>HCA's - £0.00<br>Nurse Band 5 RN General - £114,978<br>Nurse Band 5 RN Specialists - £39,143<br>Nurse Band 6 Midwives - £20,275<br>Nurse Band 7 ENP - £1,467<br>Pharmacists - £18,252<br>Pharmacy Technicians - £914 |                        |            |   |
| 2. Where the information please breakdown the spend by agency name.  |   | Yes                    | Section 43 | <p>Whilst the Trust holds the breakdown of information as requested, it is applying a Section 43(2) exemption in relation to this part of the request as the release of the information relating to the breakdown spend by agency is likely to prejudice its commercial interests.</p> <p><b>Public Interest Test</b><br/>We recognise that the disclosure of the information sought in relation to the costs involved would provide transparency in the use of public funds by the Trust and the NHS in general. It would also</p> |

|--|--|--|--|--|
|  |  |  |  | <p>assist the general populous with transparency in decision making by the Trust and their transactions with third parties.</p> <p>Conversely to the factors demonstrated above in favour of disclosure, it is felt that the Trust, third party suppliers and overall the NHS could be disadvantaged should the information sought in relation to costs being made available. Suppliers compete with one another in a competitive environment and to provide the value of the costs involved may allow rival companies to undercut the Trust current suppliers, lead to loss of confidence by suppliers and customers and could cause significant harm and disadvantage to the Trust and suppliers.</p> <p>The disclosure could also adversely impact on any on-going or future procurement processes for the reasons outlined above. Any disclosure by the Trust could also in future discourage the provision of commercially sensitive information necessary to respond properly to the Trusts Invitation To Tender, and would be likely to affect and undermine the Trusts bargaining position in any future procurement process or negotiations. Ultimately</p> |
|--|--|--|--|--|

|  |  |  |  |  |
|--|--|--|--|--|
|  |  |  |  | <p>civil action could be taken against the Trust should information be disclosed that adversely affects the commercial interests of current and/or future suppliers.</p> <p>As a result, it is in the Trust's opinion that this sufficiently demonstrates the prejudice which could be caused through disclosure.</p> <p><b>Balance Test</b></p> <p>It is important to bear in mind that any disclosure under the FOI Act is a disclosure to the public at large and not just to the applicant. It is recognised that there is a general public interest in the Trust being open and transparent. However, it is not believed that this public interest is served in disclosure for damage that would be caused as outlined above.</p> <p>Therefore, – the Trust considers that releasing this information would not be in the public interest, as the public interest does not outweigh the prejudice as set out above.
